

**IRWIN®**

## WISE-GRIP®

The Vise-Grip® Locking Tool was invented in 1924 by a blacksmith in a small town of DeWitt, Nebraska. William Petersen was a Danish immigrant who invented the first locking pliers in his blacksmith shop, and began selling them from the back of his car to farmers and people in surrounding towns. He patented his new idea and called it VISE-GRIP®.

Since then, VISE-GRIP® has gained global brand recognition as the first choice for locking pliers. Innovation and quality are the core values of the VISE-GRIP® brand. With proven performance in every turn, these are the tools that tradespeople choose first – and pass on to the next generation.

The IRWIN® VISE-GRIP® family offers a full line of locking pliers, water pump pliers, cutting and VDE Pliers. IRWIN® VISE-GRIP® pliers and wrenches continue to set the standard for dependability, quality, and innovation today and tomorrow. Wherever there's a need for a quality tool, IRWIN® VISE-GRIP® is on the job.

## Record®

Originally established in 1898 in the South Yorkshire city of Sheffield in the UK, the Record Tools Factory was swiftly able to make a long lasting contribution to the worldwide reputation of the region for the manufacture of high quality steel and castings.

The Record® brand name was introduced in 1909 and by the 1920's the product range had expanded into vices, planes, clamps and pipe wrenches enabling the business to grow rapidly in the UK and many overseas markets.

Today, IRWIN® Record® continues excelling by sticking to the traditional values set by its founders, producing tools that are highly valued amongst professional users for quality and durability that remains strong today.

### The Original

Since 1924™

IRWIN® VISE-GRIP® Original locking tools, with a classic guarded trigger release, are designed to provide maximum locking force.

### Fast Release

IRWIN® VISE-GRIP® Fast Release locking pliers have a one-handed, triggerless release, so they're twice as easy to open as the traditional design. Plus, anti-pinch, non-slip ProTouch™ Grips provide comfort, control, and less hand fatigue.

SELF-ENERGISING LOWER JAW

UNIQUE CURVED JAW

PROTOUCH™ GRIPS

**10CR FAST RELEASE LOCKING PLIER - THE PERFECT GRIP FOR ANY JOB.**

BUILT STRONG TO LAST LONG

T11T

HEX KEY ADJUSTING SCREW

**1. UNIQUE CURVED JAW**

Great for securely gripping and torquing multiple surface shapes, including round pipes, square or hex bolts and more. Perfect for any application that requires maximum torque

**2. SELF-ENERGISING LOWER JAW**

Jaw mechanism provides 3X more gripping power\*. Pivot allows jaw to align on workpiece for maximum grip without slipping or stripping

**3. PROTOUCH™ GRIPS**

Provides comfort, control and less hand fatigue

**4. 2X LONGER LIFE\***

High grade alloy steel is heat treated for maximum toughness and durability

**5. HEX KEY ADJUSTING SCREW**

Tightens to draw material closer together for tighter grip. Loosens to provide controlled release

**3X MORE GRIPPING POWER\***

**2X LONGER LIFE\***

**ProTouch™ GRIPS**

### CURVED JAW LOCKING PLIERS

Self-energising lower jaw provides three times more gripping power, with no slipping or stripping on any style nut or bolt head.

## GROOVELOCK WATER PUMP PLIERS WITH PROTOUCH™ GRIP

ALL-PURPOSE JAW

PRESS-N-SLIDE BUTTON

ANTI-PINCH NON-SLIP PROTOUCH GRIPS

MULTI-GROOVE RATCHETING SYSTEM

10507627

### WATER PUMP PLIERS

GrooveLock Pliers are designed with twice the number of groove positions as traditional groove joint pliers to deliver optimal hand and jaw positioning - providing a superior grip. The specially engineered, all-purpose jaw grips round, hex, square and flat surfaces for incredible versatility.

- 1. ALL-PURPOSE JAW**  
Grips onto flat, round, hex & square work pieces to provide tremendous bite
- 2. PRESS-N-SLIDE BUTTON**  
Adjusts jaws 2X faster than traditional groove joint pliers
- 3. MULTI-GROOVE RATCHETING SYSTEM**  
Has twice the groove positions than other groove joint pliers, for precise positioning on any type of work surface
- 4. ANTI-PINCH NON-SLIP PROTOUCH GRIPS**  
Provide comfort, control and less hand fatigue

**2X FASTER\***

## WISE-GRIP® PLIERS

IRWIN® VISE-GRIP® pliers set the standard for dependability, quality and innovation. Wherever there's a need for a quality plier, IRWIN® VISE-GRIP® is on the job. IRWIN® VISE-GRIP® offers a full line of pliers including traditional pliers, cutting pliers and specialty tools.

INDUCTION HARDENED CUTTING EDGES

POWER SLOT TECHNOLOGY

THREE-ZONE COMFORT GRIPS

INTEGRATED HANDLE HOOKS

SPECIAL ANTI-RUST COATING

### PERFORMANCE CUTTING PLIERS

The new IRWIN® VISE-GRIP® Cutting Pliers, made in Germany, are constructed of high-quality steel and specially coated for superior rust-resistance and longer tool life.

The induction-hardened cutting edges are durable enough to cut Aluminium-conductor steel-reinforced cable (ACSR), nails, screws, and even piano wire without damaging the cutting edge. Industry-leading, three-zone comfort grips are contoured for optimal cushion and control, allowing the user to make more cuts comfortably.

## PIPE WRENCHES

IRWIN® Record® offer a full range of plumbing tools designed to get the job done quickly and efficiently. From our solid-forged Stillson Wrenches to the lightweight Quick-Adjusting Wrench, our range of pipe tools offer superior grip due to the unique 'V-shaped' tooth profile.

### IRWIN® RECORD® QUICK-ADJUSTING PIPE WRENCH

#### 1. FORGED HOOK JAW

With 2-1/4" (58mm) jaw capacity equivalent to standard 14" (350mm) pipe wrench; ideal for pipe diameters up to 1-1/2" (38mm); ideal for most surfaces including black, galvanized, PVC and copper pipe, as well as nuts, bolts and couplings; broached teeth

#### 2. QUICK-ADJUSTING JAW

With one-handed operation, ratchets quickly to work the surface

#### 3. CAST ALUMINIUM CONSTRUCTION

40% less weight than standard 14" (350mm) cast iron pipe wrench; ergonomic handle is ideal for heavy torque and maximum comfort

### HANDIWRENCH

Chain pipe wrenches are mainly used in confined spaces, such as against a wall or close to a nest of other piping. Simply loop the chain around the pipe, lock it and the jaws will grip in the direction of the turn. The pipe can then be easily tightened or loosened with short strokes of the handle.
